

Circumference of circles

Find the length of the highlighted part of the circle

$$C = \frac{\pi \times d}{2}$$

$$d = 5 \text{ cm}$$

$$\pi \approx 3.14$$

$$C \approx \quad \text{cm}$$

$$C = \frac{\pi \times d}{4}$$

$$d = 3 \text{ cm}$$

$$\pi \approx 3.14$$

$$C \approx \quad \text{cm}$$

$$C = \frac{\pi \times d}{4}$$

$$d = 2 \text{ cm}$$

$$\pi \approx 3.14$$

$$C \approx \quad \text{cm}$$

$$C = \frac{\pi \times d}{4}$$

$$d = 5 \text{ cm}$$

$$\pi \approx 3.14$$

$$C \approx \quad \text{cm}$$

$$C = \frac{\pi \times d}{2}$$

$$d = 4 \text{ cm}$$

$$\pi \approx 3.14$$

$$C \approx \quad \text{cm}$$

$$C = \frac{\pi \times d}{2}$$

$$d = 2 \text{ cm}$$

$$\pi \approx 3.14$$

$$C \approx \quad \text{cm}$$
