

Decimals and fractions

Solve the problems and write your answer as a decimal number

$$6 + \frac{4}{10} + \frac{3}{100} + \frac{1}{1000} =$$

$$\frac{3}{10} + \frac{7}{100} + \frac{9}{1000} =$$

$$2 + \frac{2}{10} + \frac{9}{100} + \frac{1}{1000} =$$

$$3 + \frac{1}{10} + \frac{6}{100} + \frac{5}{1000} =$$

$$3 + \frac{9}{10} + \frac{9}{100} + \frac{6}{1000} =$$

$$2 + \frac{8}{100} + \frac{7}{1000} =$$
