

Calcul d'aires

Quelle est l'aire de chaque figure ?

$$A = a \times a$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

8 cm

$$A = a \times a$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

3 cm

$$A = a \times a$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

9 cm

$$A = a \times a$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

4 cm

$$A = a \times a$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

5 cm

$$A = a \times a$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

7 cm
