

Calcul d'aires

Quelle est l'aire de chaque figure ?

$$A = \ell \times L$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

$$A = \ell \times L$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

$$A = \ell \times L$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

$$A = \ell \times L$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

$$A = \ell \times L$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$

$$A = \ell \times L$$

$$A = \square \times \square$$

$$A = \square \text{ cm}^2$$
