

Calcul d'aires

Quelle est l'aire de chaque figure ?

$A = \frac{b \times h}{2}$

$A = \frac{\square \times \square}{2}$

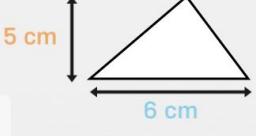

$A = \frac{\square}{2} = \square$

$A = \frac{b \times h}{2}$

$A = \frac{\square \times \square}{2}$

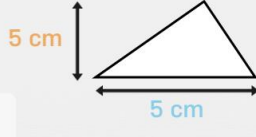

$A = \frac{\square}{2} = \square$

$A = \frac{b \times h}{2}$

$A = \frac{\square \times \square}{2}$

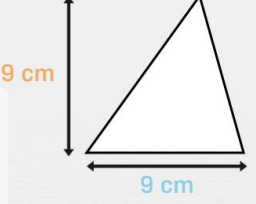

$A = \frac{\square}{2} = \square$

$A = \frac{b \times h}{2}$

$A = \frac{\square \times \square}{2}$

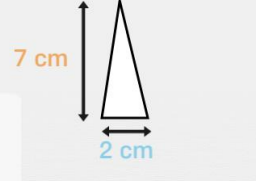

$A = \frac{\square}{2} = \square$

$A = \frac{b \times h}{2}$

$A = \frac{\square \times \square}{2}$

$A = \frac{\square}{2} = \square$

$A = \frac{b \times h}{2}$

$A = \frac{\square \times \square}{2}$

$A = \frac{\square}{2} = \square$
