

# Calcul d'aires

Calcule l'aire de ces figures.

$$A = \frac{\pi \times r^2}{4}$$
$$3,14 \times \underline{\hspace{2cm}}^2$$
$$A \approx \underline{\hspace{2cm}}^4$$
$$A \approx \underline{\hspace{2cm}}^4 \text{ cm}^2$$

$$A = \frac{\pi \times r^2}{4}$$
$$3,14 \times \underline{\hspace{2cm}}^2$$
$$A \approx \underline{\hspace{2cm}}^4$$
$$A \approx \underline{\hspace{2cm}}^4 \text{ cm}^2$$

$$A = \frac{\pi \times r^2}{4}$$
$$3,14 \times \underline{\hspace{2cm}}^2$$
$$A \approx \underline{\hspace{2cm}}^4$$
$$A \approx \underline{\hspace{2cm}}^4 \text{ cm}^2$$

$$A = \frac{\pi \times r^2}{4}$$
$$3,14 \times \underline{\hspace{2cm}}^2$$
$$A \approx \underline{\hspace{2cm}}^4$$
$$A \approx \underline{\hspace{2cm}}^4 \text{ cm}^2$$

$$A = \frac{\pi \times r^2}{4}$$
$$3,14 \times \underline{\hspace{2cm}}^2$$
$$A \approx \underline{\hspace{2cm}}^4$$
$$A \approx \underline{\hspace{2cm}}^4 \text{ cm}^2$$
